The AVT Group is a Europe-wide active supplier for geodata. AVT Airborne Sensing GmbH at Münster-Osnabrück Airport carries out surveying flights. Our photogrammetric data production is located in Imst in Tyrol / Austria.

We are looking to strengthen our 20-person team on a permanent basis

two employees (male / female) for photogrammetry

Responsibility:

- Independent project management and communication with customers in the Netherlands, Belgium and Germany
- Coordination of the process steps with employees and support for the client
- Aerotriangulation and creation of follow-up products such as orthophotos and 3D mesh
- Quality control and documentation

Your education / qualification:

- Work experience or studies in a geodiscipline with a focus on GIS / remote sensing
- Basic knowledge in the field of photogrammetry, 3D modeling, geodata management
- Safe handling of GIS software (e.g. QGIS, ArcGIS)
- Knowledge of subject-specific software such as Trimble Inpho, Matlab, FME is not a prerequisite, but it would be a plus
- Independent work, problem-solving skills
- Ability to work in a team and willingness to travel
- Good knowledge of written and spoken Dutch and willingness to learn German

Place of work:

- Airport Münster / Osnabrück or Imst / Tyrol
- Both locations are easily accessible by public transport.

We offer:

- A thorough induction, depending on the qualification
- A permanent full-time employment contract
- Flexible working hours by arrangement (home office days may be possible)
- Responsible tasks in a diverse niche area
- A high recreational value in the Münsterland or the mountains of Tyrol!

Interested? We offer young graduates and, above all, those returning to work, a perspective.
