

Vermessung AVT-ZT-GmbH is a leading surveying company in Austria.
We are now looking for reinforcements for our **Klosterneuburg branch**

Technician (m/w/d)

for Airborne Laser Scanning

About the company:

Vermessung AVT-ZT-GmbH (www.avt.at) is one of the largest Austrian surveying companies in the fields of cadastral surveying, photogrammetry, engineering geodesy, geoinformation and laser scanning. We are working on varied projects in Central Europe. Technical innovations, regional presence and international projects characterize the work of 90 colleagues in Austria and Germany.

Your key responsibilities:

- Processing of Airborne Laser Scanning data
- Processing of Digital Terrain and Surface Models (DTM & DSM)
- Ongoing IT activities (e.g. data backups)

Your qualifications:

- Good spatial thinking
- Customer-oriented, logical and analytical thinking
- Technical and mathematical understanding
- Basic knowledge of CAD/GIS programs; Knowledge of MicroStation advantageous
- Good German and English skills (spoken and written) are advantageous
- Willingness to work in a team

We offer:

- Participation in exciting, challenging, local and international projects
- Excellent working atmosphere
- State-of-the-art technologies and equipment
- Secure year-round full-time position with 40h/week; Part-time possible
- Training and further education opportunities
- 14 salaries

After training, the work will be carried out independently under the supervision of an experienced AVT employee. Hybrid working model after the training phase and extra agreement is possible.

Salary:

The minimum classification according to the Collective Agreement for Employees of Architects and Engineering Consultants is 2/1. Grading will be based on education and work experience.

Please send your detailed application (letter of application, curriculum vitae, certificates, photo) by e-mail to:

Anna Kondracka, M.Sc Eng.
